CONSTRUCTION & ENGINEERING

kbarlowjones@guardrisk.co.za

kpetersen@guardrisk.co.za

Cover includes

CONTRACTORS ALL RISK

- Insures against accidental physical loss or damage to the insured property on an all risks basis against elemental perils, fire and theft as well construction related accidents associated with building and civil engineering construction.
- Covers the Employer, the contractors and sub-contractor's work and material.
- The policy also extends to cover third party property damage or injury originating from the insured contract.

PROJECT DELAY/ ADVANCED LOSS OF PROFITS

- Covers the financial risks associated with a delay in project completion which typically includes loss of gross profit, loss of rental income, loss of standing charges etc. subject to the contract being insured through Guardrisk Engineering

ENGINEERING INSURANCE/ MACHINERY BREAKDOWN

- Insures against sudden and unforeseen physical damage to the insured machinery whilst at work or at rest.
- The cover can be extended to insure against business interruption, increased cost of working or deterioration of stock following damage as defined in the policy

ERECTION ALL RISK

- Covers physical loss or damage to plant and machinery whilst being erected, positioned or dismantled or during storage, transit or maintenance
- The insurance cover can be extended to Public Liability cover

PLANT RISK (PAR)

- Cover can be arranged on various types of construction plant and equipment.
- The cover is normally limited to site or whilst in transit and covers against loss or damage due to unforeseen physical loss or damage as a result of external causes to owned or hired-in/hired-out plant and equipment.
- The policy can be extended to Third Party liability damage and we further offer personal accident insurance that is unique to Guardrisk Engineering.

ELECTRONIC EQUIPMENT

- Covers against accidental loss or damage to various types of electronic equipment such as computers, PABX telephonic systems, and more specialised equipment.
- The cover can also be extended to business interruption, increased costs of working and reinstatement of data
