What is Educ8 Private Edge?

Unfortunately, governing body members of schools can be held personally responsible for actions and decisions made on behalf of the school, putting their personal assets at risk.

By introducing Educ8 Private Edge to your insurance portfolio, be rest assured that your school's future viability will in no way be compromised in the event of legal and / or financial incidents arising.

Why the need for Educ8 Private Edge?

- While it is not uncommon for management liability insurance to only provide cover for individual members for advancing legal costs and indemnification in terms of personal liability, Educ8 Private Edge extends this cover to holistically and uniquely allow the school itself to be protected by this policy
- The security and future financial viability of the your school is therefore safeguarded in the event of any financial losses as a result of legal action or wrongful acts, or public relations costs necessary to manage a crisis that may result in an impending financial loss
- Cover is extended to include governing body members, school principals, the school treasurer, the school secretary, employee benefit fund trustees and most importantly, the School itself
- As part of the Educ8 product range, a streamlined administration and claims management facility is maintained
